

KELLY SIMPER

**EMPLOYEE OF THE MONTH
SEPTEMBER 2008**

I would like to show my appreciation to Kelly Simper by nominating him for Employee Of The Month. I have never heard Kelly complain. He always puts his best foot forward. He has respect for his co-workers and his job. He is dependable and prompt.

When Kelly helps us at the Harman Senior Recreation Center, he does not boast of his accomplishments and he doesn't look for acknowledgment. Kelly is organized and humble in all that he does. He sets a great example to others on how a West Valley City employee should act.

On two separate occasions, we have experienced flooding in our building. Both times Kelly worked to repair the damage in an efficient manner and with as little disruption to the seniors as possible.

Another example of Kelly's great attitude is when a car struck our building. The damage to the frame of the building was massive. Kelly secured the building and assisted Zenda in taking necessary actions. Repairs were done in a manner that kept the seniors safe in the center for their activities during reconstruction.

The women at the Harman Senior Center are able to run the facility very well, However, there are times we have needed Kelly's assistance in lifting the chairs and tables to set up for special events. He also helps us with lights that are too high, locks that don't work, etc..

I don't have adequate words to tell of the hard work and good Kelly has done for us over the years. It is a real comfort to know he will help us whenever we need him. Please acknowledge him and express the appreciation we have for his kindness, gentle spirit, and hard work.
